

DSP5520W

20W Sound Projector Speaker

Description

DSP5520W is a 20W sound projector with high sound pressure and good sound quality, using high-quality aluminum materials, aluminum mesh, dual-directional design, and simple appearance shape, which is the best choice for applications where it is necessary both the high performance of sound projects and music broadcast.

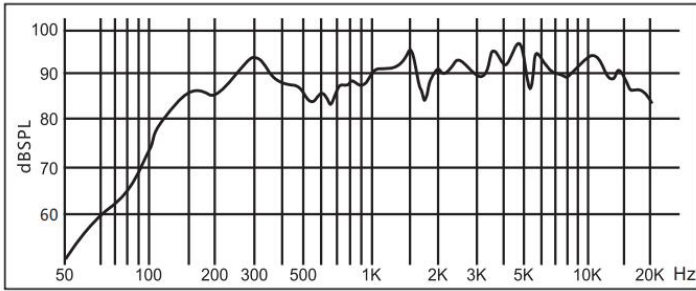

Features

- Rated Power: 20W
- Work Voltage: 100V
- Frequency Response: 160Hz-20kHz
- Sensitivity(1m,1W):91±2dB
- Max SPL(1m): 104±2dB
- Clear and bright sound, bringing quality sound enjoyment.
- Made of high quality paper cone with special technology processing, good sound performance.
- Adopts dual-directional design, simple appearance shape, suitable for a variety of indoor and outdoor occasions.
- Using high-quality aluminum and aluminum mesh, non-rust corrosion resistance, durable and reliable.

Specifications

Model	DSP5520W
Driver Unit	5"×2
Rated Power	20W
Work Voltage	100V
Sensitivity (1m,1W)	91dB±2dB
Max.SPL(1m)	104dB±2dB
Freq. Resp. Range	160Hz-20kHz
Product Size (W×H)	∅138×200mm
Net Weight	2.8kg

Frequency Response Characteristic (dB SPL, 1W, 1m)

Distortion Characteristic (THD < 5% 1W, 1m, 100Hz-10kHz)
