

## DSP30T

### Magnetic Track Hi-Fi Bluetooth Speaker

#### Description

The Magnetic Track Hi-Fi Bluetooth Speaker features a plug-and-play rail installation design. Equipped with a built-in Bluetooth 5.3 chip, it delivers stable wireless transmission up to 15 meters and supports one-master-multiple-sub wireless connection with automatic pairing. The Hi-Fi nano diaphragm speaker driver, combined with DSP digital audio processing, produces rich, detailed sound with minimal distortion. Its rotatable design allows 360° horizontal and 90° vertical adjustment for precise directional audio. It is ideal for living rooms, bedrooms, home theaters, KTVs, cafés, and other versatile environments.

#### Features

- Crafted with a durable aluminum alloy housing.
- Hi-Fi-grade sound quality with built-in DSP digital audio processing
- Nano diaphragm speaker driver with optimized acoustic chamber and digital sound enhancement technology.
- Rubber-surround driver design for rich sound and low distortion.
- Bluetooth 5.3 chip with stable wireless transmission up to 15 meters (unobstructed).
- Supports one-master-multiple-sub wireless connection with automatic pairing.
- Bluetooth reconnection memory for faster and more stable connections.
- Zoned audio networking with grouping control for precise sound management.
- Magnetic track-mounted design with plug-and-play installation, positionable anywhere along the track.
- Supports multiple track installation methods: surface-mounted / embedded slot / concealed plastered installation.
- Powered by a 48V track system (track rail and power supply sold separately).
- Rotatable design for directional sound output: 360° horizontal rotation and 90° vertical tilt.
- Suitable for various environments including living rooms, bedrooms, home theaters, KTV rooms, yoga studios, retail stores, chain shops, cafés, and e-sports venues.

## Specifications

Model	DSP30T
Driver Unit	1 × 2" full-range driver
Rated Power	20W
Impedance	8Ω
Sensitivity	83dB
Maximum SPL	96dB
Frequency Response	40Hz-20kHz
Power Supply	DC 48V
Bluetooth Version	V5.3
Bluetooth Range	15m
Dimensions	Ø65 × 118 mm
